C#/C++

SUMMARY

React.js enthusiast who speaks in JavaScript, with proficiency in Frontend Development, able to make any website work. I build websites that are accessible, fast, and scalable while focusing on an intuitive user experience.

PROJECTS

Quizzical

Jul 2024 - Aug 2024

- Developed in React.js with Tailwind.
- Quiz data is fetched once the user starts the quiz.
- The user can select the answers based on their knowledge.
- The user's answers are checked to determine the correct answers and add 1 point to his score for every right answer.
- The user can start a new quiz with questions from a different category from the previous.

Product List with Cart

Jul 2024 - Aug 2024

- Developed in React.js with Tailwind.
- The user can select and add as many products to his cart as he wants.
- The user is able to complete his order once he is satisfied with his products.
- The user start a new order from scratch.

DevFinder

Apr 2024 - May 2024

- Developed in JavaScript.
- Follows OOP principles.
- The user can search for any Github Profile.
- The Github user's links are provided on the search result.
- Placeholder text is available on empty fields.
- Failed search results in a 404 page.
- Has Dark Mode toggle button using localStorage.

REFERRAL

Featured in Scrimba's Newsletter

- My [PC Builder App](#) got recognition by successfully merging 2 projects together while adding a personal touch to it. The app is characterized as being innovative and cutting-edge. ([Link to post](#))
- [GameStation](#), an Instagram Feed clone for PC enthusiasts, got its spotlight for being "an innovative and creative project that is pushing the boundaries of creative application development". I was praised for my exceptional ability to think outside the box, my dedication and also the power to exceed expectations. ([Link to post](#))

EXPERIENCE

**Frontend Specialization Program (TypeScript,
React)** Aug 2024 - Present
EPAM Systems

- Designed and developed user interfaces using React components and hooks.
- Utilized TypeScript to write typesafe code and improve code quality.

Frontend Fundamentals May 2024 - Jun 2024
EPAM Systems

- Implemented responsive designs for mobile and tablet devices.
- Designed and developed user interfaces using JavaScript.
- Updated UI by interacting with the DOM.
- Developed applications that follow SOLID principles.
- Ability to integrate APIs with various platforms and systems.
- Tested and debugged code using Jest to identify and fix issues.

Quality Assurance Specialist Mar 2021 - May 2024
Ubisoft

- Achieved above 99% score in Validity Rate with an average Submission Response time of less than 1 second, handling a workload of 68 bugs.
- Attained the highest rating among the testing team, resulting in a 100% rating in 360-degree feedback evaluations.
- Delegated tasks to 5 team members, resulting in an increase of 20% in timely and exceptional task execution.
- Led a 10-member team resulting in the identification of 126 bugs, including 24 attributed to me, ranking as the highest contributor.
- Reached the leading position within the team and secured the 4th rank among all Bucharest testers.
- Earned top score for Team Collaboration by consistently facilitating information exchange with both the team and development testers to resolve game-related issues.
